

**PROCESS OF DEFINING
VISION, MISSION, PEO,
AND PSO OF THE
DEPARTMENT**

S.A ENGINEERING COLLEGE
Autonomous-Institute Level Research Centre-Affiliated to
Anna University
DEPARTMENT OF COMPUTER SCIENCE AND
ENGINEERING

Process for defining the Vision and Mission of the Department

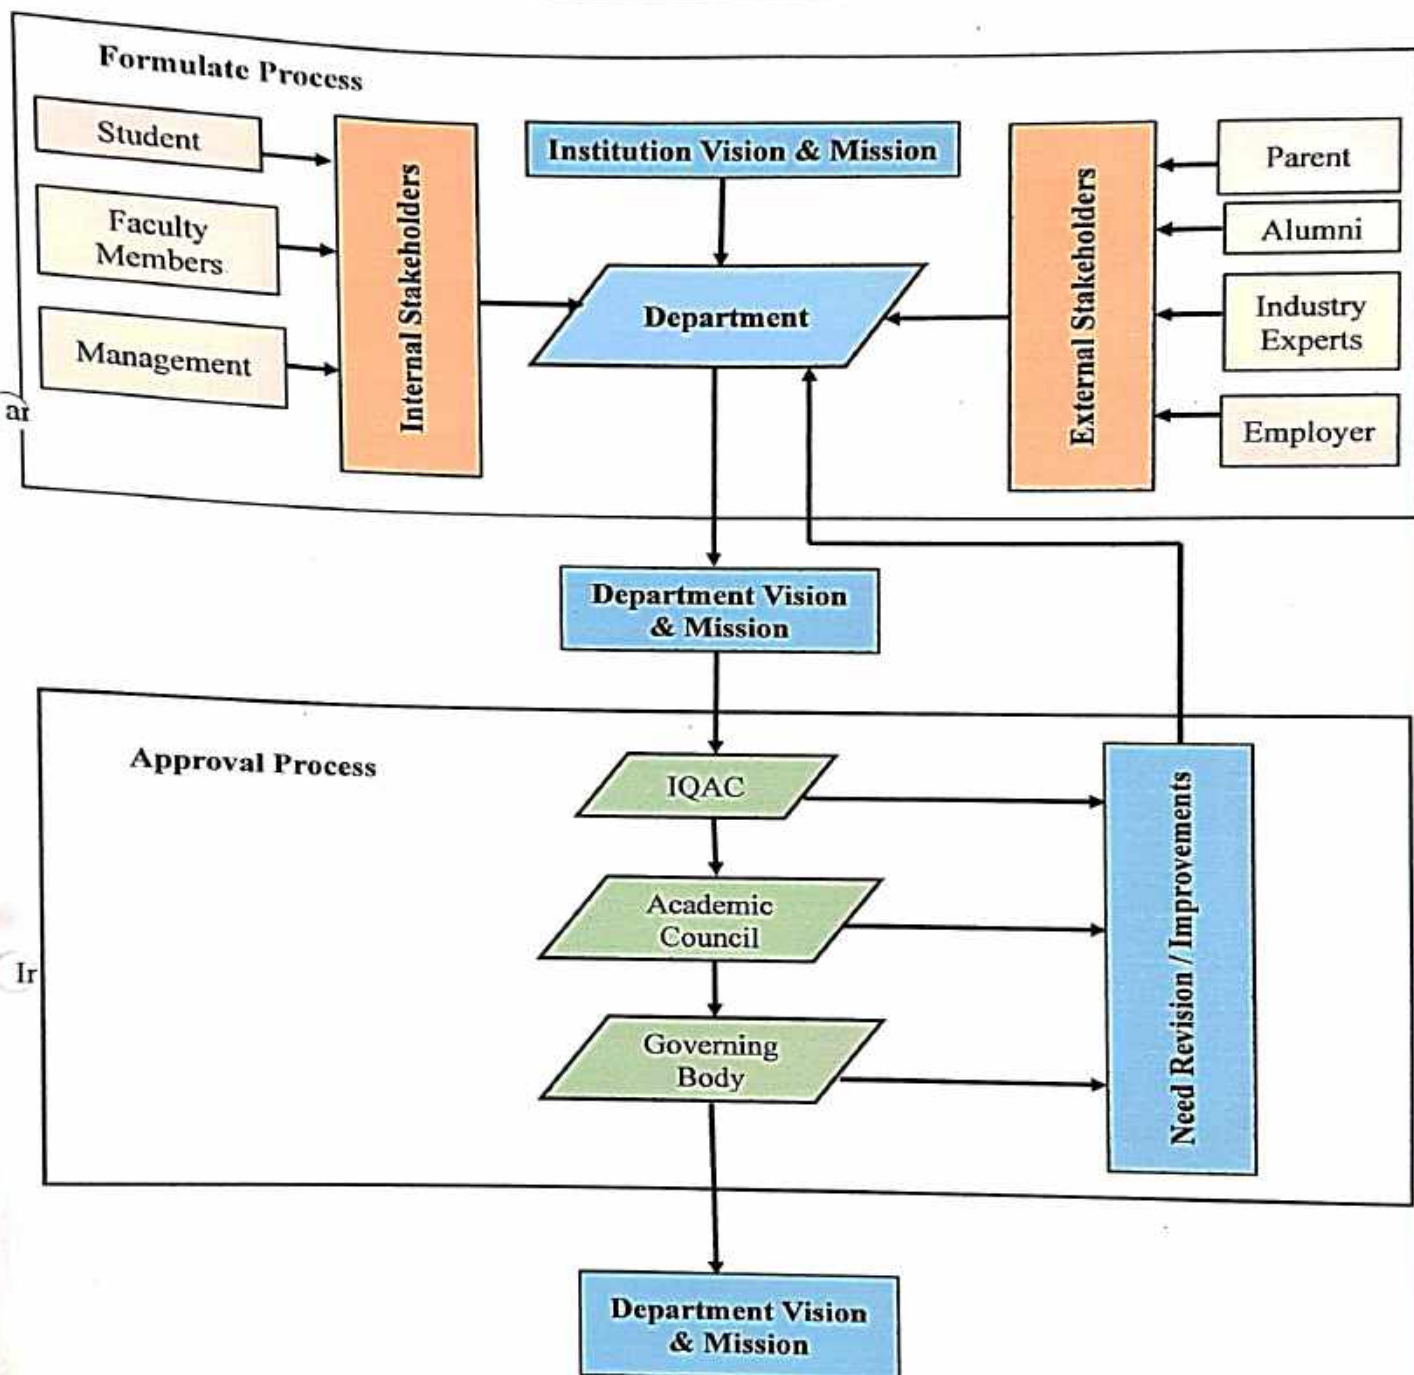

The department's vision and mission and the program's PEOs are defined by considering the views of various stakeholders associated with the Institute/Department, the latest developments, the future scope, and society's needs.

- A committee at the institute-faculty-department level is formed to identify, implement, and review Vision and Mission statements in consistency with the vision and mission statements of the institute.
- Various bodies, such as DAC (Department Advisory Committee) and PAC (Program Assessment Committee), are formed to advise on various matters.
- In departmental meetings, the departmental Vision and Mission statements are reviewed, specifically considering the latest trends, industry demand, etc.
- The proposed Vision and Mission statements are also circulated to the Alumni, Employer, Faculty, and Parents, and their feedback is taken.
- After considering the feedback received, the Program Advisory Committee prepares draft Vision and Mission statements, which are discussed and brainstormed in a meeting of the entire faculty.
- The statements are then sent to IQAC, Academic Council, and Governing Body for approval.

Step 1: Formation of Committees:

- Internal stakeholders (students, faculty members, and management) and external stakeholders (parents, alumni, industry experts, and employers) are identified.
- Committees such as the Department Advisory Committee (DAC) and Program Assessment Committee (PAC) are formed to provide structured input and guidance on the Vision and Mission statements.

PROCESS OF DEFINING VISION AND MISSION OF THE DEPARTMENT

Step 2: Alignment with Institution Vision and Mission:

- The Department ensures that its Vision and Mission align with the Institution's Vision and Mission.
- This alignment is critical to maintaining consistency and fostering unified growth across all departments.

Step 3: Input from Stakeholders:

- Feedback and inputs are collected from **internal stakeholders** (students, faculty members, and management) and **external stakeholders** (parents, alumni, industry experts, and employers).
- Structured feedback mechanisms such as surveys, meetings, and brainstorming sessions are used to ensure inclusivity and relevance.

Step 4: Drafting of Vision and Mission:

- The Department collates the inputs and drafts the Vision and Mission statements.
- The draft incorporates current industry trends, graduate attributes, and societal expectations to reflect both academic and practical aspirations.

Step 5: Departmental Review:

- The draft Vision and Mission statements are discussed in departmental meetings.
- Faculty members analyze the draft for clarity, relevance, and alignment with industry and societal needs.
- Inputs from these discussions are incorporated into a revised draft.

Step 6: Student Feedback and Display:

- Faculty members present the draft Vision and Mission statements to their respective classes for student feedback.
- The drafts are displayed on departmental notice boards to ensure visibility and invite additional suggestions.

Step 7: Feedback from Alumni and Employers:

- Alumni feedback is gathered through formal surveys and informal discussions.

- Employers provide insights on industry requirements and graduate expectations, which are incorporated into the statements.

Step 8: Parental Input:

- Parents are consulted through structured feedback sessions to ensure that the Vision and Mission reflect societal expectations and aspirations.

Step 9: Finalization by the Program Advisory Committee:

- The Program Advisory Committee include Program AC reviews all collected inputs and prepares the final version of the Vision and Mission statements.
- The committee ensures that the statements are precise, actionable, and aligned with institutional goals.

Step 10: Review and Approval Process:

- The drafted Vision and Mission statements are submitted to the **Internal Quality Assurance Cell (IQAC)** for review.
- Subsequent approvals are obtained from the Academic Council and Governing Body.

Step 11: Implementation and Display:

- Once approved, the finalized Vision and Mission statements are implemented.
- They are prominently displayed within the department and communicated to all stakeholders through newsletters, websites, and other channels.

Step 12: Need for Revision/Improvement:

- The Vision and Mission statements are periodically reviewed to reflect evolving trends, stakeholder expectations, and institutional goals.

Internal Quality Assurance Cell (IQAC) – S.A. Engineering College

The Internal Quality Assurance Cell (IQAC) at S.A. Engineering College (SAEC) is committed to fostering a culture of academic excellence, quality enhancement, and continuous improvement in all institutional activities. Established in accordance with NAAC guidelines, the IQAC functions as a driving force for quality assurance by developing and implementing strategies to

enhance the teaching-learning process, research initiatives, administrative efficiency, and industry-academia collaborations.

The IQAC at SAEC is structured to:

- Establish quality benchmarks for academic and administrative processes. Ensure effective curriculum delivery by adopting modern pedagogical methods and ICT-enabled teaching.
- Monitor and improve faculty development programs, research contributions, and innovation-driven projects.
- Enhance student learning outcomes through skill-based training, internships, and industrial partnerships.
- Conduct periodic academic and administrative audits to measure institutional performance.
- Promote inclusivity, sustainability, and ethical governance in higher education.

By organizing seminars, workshops, and quality improvement programs, the IQAC continuously evaluates and implements measures for **academic and institutional growth**. It also acts as a **nodal agency** for coordinating quality-related initiatives, ensuring compliance with national and international **quality standards**. The cell actively engages stakeholders, including **faculty, students, alumni, industry experts, and governing bodies**, to drive **continuous innovation and excellence in engineering education**.

Through these sustained efforts, the **IQAC at SAEC** plays a vital role in realizing the institution's **Vision of becoming a center of academic excellence**, aligning with NBA accreditation standards and AICTE's quality assurance framework.

Process for defining the PEOs of the program

The Program Educational Objectives (PEOs) of the Program were also established through a consultative process involving various stakeholders. The following steps were followed for the establishment of the same: The Program Educational Objectives are framed by the Program Assessment Committee after a careful consideration of feedback received from the internal and external stakeholders. The process of establishing outcome based PEOs started with providing awareness of the new NBA criteria to the entire faculty through conducting workshops and seminars. The objective of the program is to produce globally competent Computer Science Engineers possessing all round skills. The Governing council framed PEOs in-line with the above said requirement. Subsequently the alignment of the framed PEO is verified with the Mission of the institution and Department. Finally, the accepted version of PEO will be disseminated through all regular modes. Figure 1.4.2 below shows the process of establishing PEOs.

Step 1: Stakeholder Identification and Input Collection

- The process begins with identifying and consulting both **internal stakeholders** (students, faculty members, and management) and **external stakeholders** (parents, alumni, industry experts, and employers).
- Feedback is collected through surveys, structured interviews, and meetings to ensure diverse perspectives on the expectations from graduates.

Step 2: Alignment with Vision and Mission

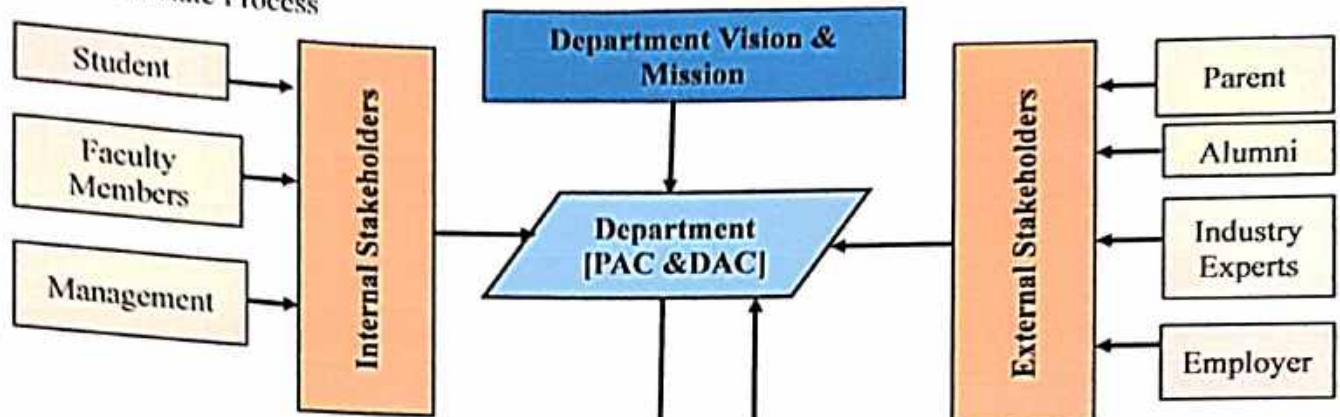

- The collected feedback is mapped to the **Vision and Mission** of the department and institution.
- This step ensures that the PEOs are aligned with the broader goals of the institution, including producing globally competent professionals and addressing societal and industry needs.

Step 3: Initial Draft by Department Committees

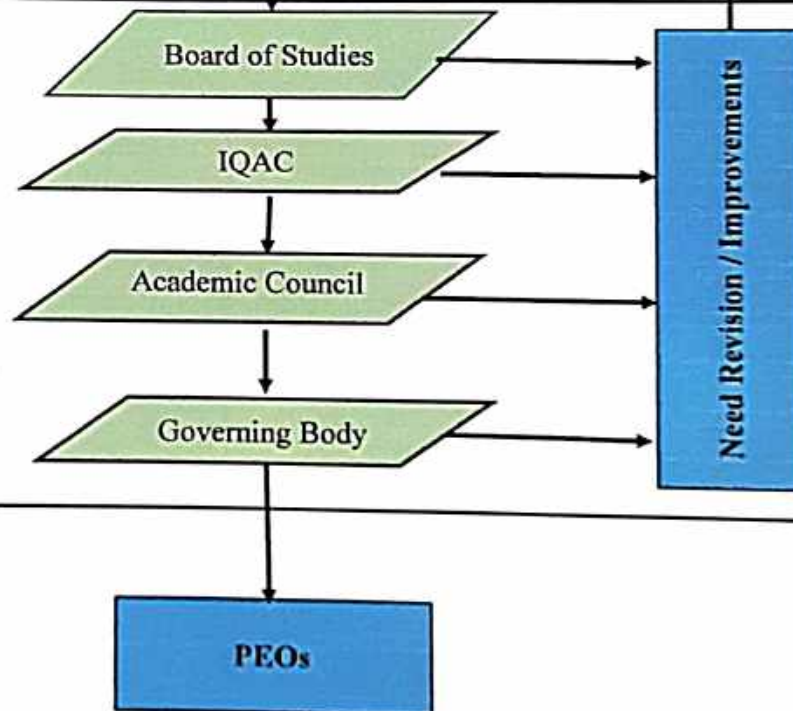

- The **Program Assessment Committee (PAC)** and **Department Advisory Committee (DAC)** analyze the stakeholder feedback and the Vision and Mission statements.
- These committees collaboratively frame the initial draft of the **Program Educational Objectives (PEOs)**.

PROCESS OF DEFINING THE PEOs OF THE DEPARTMENT

Formulate Process

Approval Process

- The draft reflects the aspirations to balance technical expertise, ethical values, and professional development.

Step 4: Feedback on Draft PEOs

- The draft PEOs are circulated among all stakeholders, including students, faculty members, alumni, industry experts, and employers.
- Feedback is actively solicited to ensure the objectives meet both academic and professional standards.

Step 5: Iterative Revisions

- The collected feedback is carefully reviewed, and necessary revisions are made to the draft PEOs.
- This iterative process ensures that the PEOs are comprehensive, relevant, and future-ready.

Step 6: Multi-Tier Approval Process

- The revised PEOs undergo a formal **approval process** as follows:
 - **Board of Studies (BoS):** Reviews the PEOs for academic rigor and alignment with curriculum goals.
 - **Internal Quality Assurance Cell (IQAC):** Validates the PEOs against institutional quality benchmarks.
 - **Academic Council:** Provides a strategic review to ensure alignment with institutional policies.
 - **Governing Body:** Grants final approval, marking the PEOs as official.

Step 7: Implementation and Dissemination

- Once approved, the finalized PEOs are implemented and disseminated using various channels:
 - Display on department notice boards, websites, and newsletters etc.,
 - Communicated to students, faculty, and other stakeholders to ensure awareness and alignment with educational practice.

Step 8: Periodic Review and Updates

- To maintain relevance, the PEOs are periodically reviewed considering:
 - Emerging trends in technology and industry.
 - Evolving stakeholder expectations.
 - Changes in institutional goals.
- Revisions, if needed, are carried out through the same consultative and approval process.

Process for defining the PSOs of the program

The Program Educational Objectives (PSOs) of the Program were also established through a consultative process involving various stakeholders. The following steps were followed for the establishment of the same: The Program Educational Objectives are framed by the Program Assessment Committee after a careful consideration of feedback received from the internal and external stakeholders. The process of establishing outcome based PSOs started with providing awareness of the new NBA criteria to the entire faculty through conducting workshops and seminars. The objective of the program is to produce globally competent Computer Science Engineers possessing all round skills. The Governing council framed PSOs in-line with the above said requirement. Subsequently the alignment of the framed PSO is verified with the Mission of the institution and Department. Finally, the accepted version of PSO will be disseminated through all regular modes.

Step 1: Stakeholder Identification and Input Collection

- The process begins with identifying and consulting both **internal stakeholders** (students, faculty members, and management) and **external stakeholders** (parents, alumni, industry experts, and employers).
- Feedback is collected through surveys, structured interviews, and meetings to ensure diverse perspectives on the expectations from graduates.

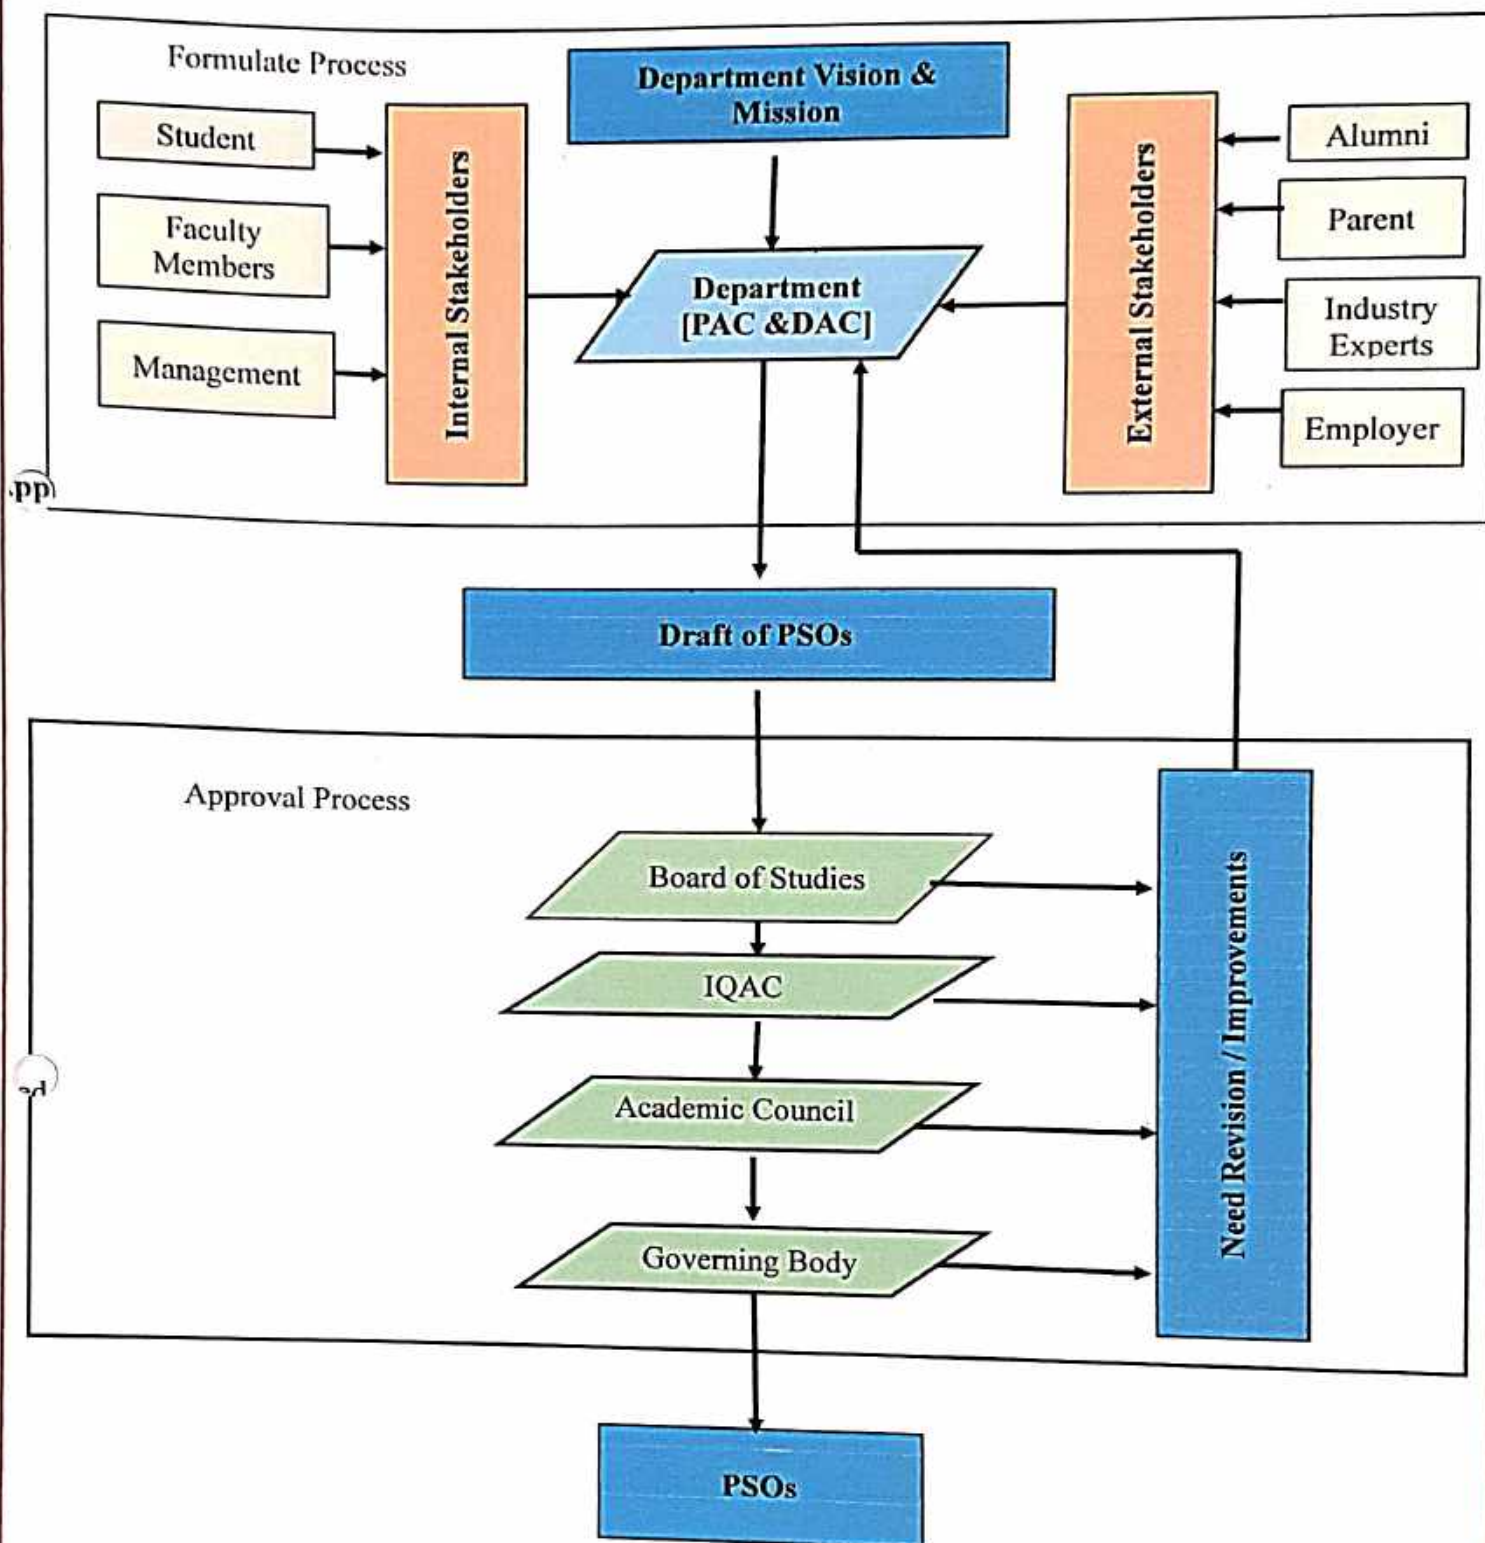

Step 2: Alignment with Vision and Mission

- The collected feedback is mapped to the **Vision and Mission** of the department and institution.
- This step ensures that the PSOs are aligned with the broader goals of the institution, including producing globally competent professionals and addressing societal and industry needs.

Step 3: Initial Draft by Department Committees

- The **Program Assessment Committee (PAC)** and **Department Advisory Committee (DAC)** analyze the stakeholder feedback and the Vision and Mission statements.
- These committees collaboratively frame the initial draft of the **Program Specific Outcomes(PSO)**.

- The draft reflects the aspirations to balance technical expertise, ethical values, and professional development.

PROCESS OF DEFINING THE PSOs OF THE DEPARTMENT

Step 4: Feedback on Draft PSOs

- The draft PSOs are circulated among all stakeholders, including students, faculty members, alumni, industry experts, and employers.
- Feedback is actively solicited to ensure the objectives meet both academic and professional standards.

Step 5: Iterative Revisions

- The collected feedback is carefully reviewed, and necessary revisions are made to the draft PSOs.
- This iterative process ensures that the PSOs are comprehensive, relevant, and future-ready.

Step 6: Multi-Tier Approval Process

- The revised PSOs undergo a formal **approval process** as follows:
 - **Board of Studies (BoS):** Reviews the PSOs for academic rigor and alignment with curriculum goals.
 - **Internal Quality Assurance Cell (IQAC):** Validates the PSOs against institutional quality benchmarks.
 - **Academic Council:** Provides a strategic review to ensure alignment with institutional policies.
 - **Governing Body:** Grants final approval, marking the PSOs as official.

Step 7: Implementation and Dissemination

- Once approved, the finalized PSOs are implemented and disseminated using various channels:
 - Display on department notice boards, websites, and newsletters etc.,
 - Communicated to students, faculty, and other stakeholders to ensure awareness and alignment with educational practices.

Step 8: Periodic Review and Updates

- To maintain relevance, the PSOs are periodically reviewed considering:
 - Emerging trends in technology and industry.
 - Evolving stakeholder expectations.
- Revisions, if needed, are carried out through the same consultative and approval process.

MINUTES OF BOARD OF STUDIES MEETING

DATE: 18-03-2024

S.A. Engineering College, Chennai conducted the meeting of Board of Studies for UG in Department of Computer Science and Engineering as per the guidelines of UGC on 18.03.2024 at 9.30 AM

The Following Members were present at the Meeting:

S.NO	NAME & ADDRESS	DESIGNATION
1.	Dr.R.Geetha (Chairperson)	Professor& HoD/CSE S.A.Engineering College
2.	Dr.S.Umamaheswari (University Nominee)	Associate Professor, Department of Information Technology, MIT Campus.
3.	Dr.V.Masilamani (Subject Expert)	Professor & HoD /CSE IIITDM, Vandalur-Kelambakkam Road, Chennai-6000127
4.	Dr.C.Jayakumar (Subject Expert)	Associate Professor and HoD(AI&ML) Rajiv Gandhi National Institute of Youth Development, Sriperumbudur.
5.	Dr.R.Gokularkrishnan (Representative from Industry)	Additional Director, Software Technology Parks of India, Chennai.
6.	Mr.B.R.SriKiranJyothi (Alumnus)	Senior Product Manager PayPal India PvtLtd,Chennai

7.	Dr.Anuradha M	Professor
8.	Dr.D.Hemanand	Professor
9.	Dr.S.Sivakumar	Professor
10.	Dr.D.Chitradevi	Associate Professor
11.	Mr.C.Balakrishnan	Associate Professor
12.	Ms.Aruni Shiny S	Assistant Professor
13.	Ms.Shobana R	Assistant Professor

- The Chairperson, Dr.R. Geetha, of the Board of Studies in the Department of Computer Science and Engineering, welcomed the members of the Board of Studies.
- The Meeting proceeded to the matters in Agenda:

S.NO	POINTS DISCUSSED & DESCRIPTION
Agenda: • B.E. CSE (R2024) Curriculum approval. • B.E CSE (R2024) 1st and 2nd semester syllabi approval. • Discussion on laboratory courses. • Suggestion on teaching and learning methods. • Approval of updated Department Vision and Mission statements. • Discussion on Value Added Course.	
1	Regulation 2024: Semester 1: i) CS 3101 Programming for problem solving using C • Members recommended reducing the content of Unit 1 in the syllabus. Common content can be given as a single topic. It can be generalized. • Make second text book as first and First text book as second text as mentioned in the syllabus. • And also to change the subject titled from "Programming for problem solving" as "Programming for problem solving using C". Semester II: i)CS 3201 Programming in Python • Members suggested to change title of unit 5 as "Introduction to OOP using python". • And they asked to add each concepts of Object Oriented Programming in syllabus. • Members suggested to change topics of script as Program Verses Script and interpreter as Compiler verses interpreter in unit 1. ii) CS 3202 Programming in Python laboratory • Members suggested that the lab exercise titles should be generic. Semester 3: • Members asked to remove design thinking lab. • They recommended awarding three credits for the "Design Thinking" course; however, one credit would also be sufficient if the concepts were not explained in great detail. • Change course name "Design thinking" as "Design thinking and software engineering".

- Unit 5 should have application and case study.

Semester 4:

- Members asked to add the subject titled "Computer Architecture and High Performance Computing" in 4th semester and also suggested to allocate first three units for architecture content and the next last two units for High performance content.
- Members asked to move "Theory of Computation" to 5th semester.

Semester 5:

- Members asked to move "Compiler Design" course to 6th semester.
- Members suggested to add Cryptography and cyber security lab with 2 credits.

Semester 6:

- Members suggested to keep the subject titled "Embedded system and IoT" as elective and suggested to change course name as "IoT and edge computing".
- Members suggested to add "Quantum Theory" as a core subject instead of Professional elective III. Experts can be arranged to teach "Quantum theory" course.

Semester 7:

- Decided to change "Human values and ethics" as "Professional Ethics".

Semester 8:

- This semester may be dedicated only project and internship.

General:

- The BoS members reviewed and approved the revised Vision and Mission statements of the Department.
- BoS members also approved the proposal to offer Value Added Courses for students, namely 'Full Stack Development (Server Side)' for third year students and 'Python With MongoDB' for second year students.

- 8.08 To approve the II Semester Syllabus of M.E. – Computer Science and Engineering Programme of for the Regulation 2023
Resolved to approve the II Semester Syllabus of M.E. – Computer Science and Engineering Programme of for the Regulation 2023 as given in Annexure - VII
- 8.09 To approve the II Semester Syllabus of M.E. – Communication System Programme for the Regulation 2023
Resolved to approve the II Semester Syllabus of M.E. – Communication System Programme for the Regulation 2023 as given in Annexure - VIII
- 8.10 To approve the II Semester Syllabus of M.E. – Embedded System Technologies Programme for the Regulation 2023
Resolved to approve the II Semester Syllabus of M.E. – Embedded System Technologies Programme for the Regulation 2023 as given in Annexure - IX
- 8.11 To approve the II Semester Syllabus of M.E. – CAD/CAM Programme for the Regulation 2023
Resolved to approve the II Semester Syllabus of M.E. – CAD/CAM Programme for the Regulation 2023 as given in Annexure - X

8.12 The following suggestions were given by the Academic Council members

1. University Nominee Dr Magesh suggested to fix the total credit of 102 to 106 for MBA programme as per the guidelines given by TANSCH
2. Dr Suresh, Professor, NIT- academic nominee enquired the total credit fixed for B.E-Mechanical programme and advised to fix the total credit to below 170
3. He also advised to reconsider the 4 credit course into 3 credit course in B.E.-Mechanical Engineering programme
4. Dr.Suresh, Professor, NIT suggested that the staff shall take up the Outcome Based Education course in NPTEL. For which, principal Dr S Ramachandran stated that around 100 staff have taken up and written NPTEL Exam on Outcome based education and awaiting for results
5. All nominees appreciated the quality initiatives taken by the institution regarding NBA accreditation and wished to get accreditation status for all the eligible courses
6. Industry nominee Mr.V.S.V Verchezhian insisted that the student should be trained in Industry 4.0 and he also stated that he would help the students to get training in Industry 4.0 in Manufacturing industries and as well for motivation and grooming them to get placement in industries.
7. Dr.P.Lakshmi, academic nominee enquired about the placement training activities and placed student details and the same was clarified by the Principal Dr S Ramachandran.
8. Dr. G Kumaresan, academic nominee enquired about Tamil subjects and Research Promotion Policy of the institution and the same was clarified by the Principal Dr S Ramachandran.
9. Dr G Kumaresan also suggested that the knowledge on Course outcome and programme outcome and their mapping should be inculcated to the student level to make them aware of outcome based education.
